The third number of Si Klegg is now out. It is full of bright, funny, pathetic and vividly interesting episodes of camp life. The boys have some new experience on picket, and they meet Mr. Rosenbaum, a Jew, who, in his love for the Union, and devoted loyalty, has taken up getting information as his share of the work. Deacon Klegg writes an nteresting letter of his experiences in getting home with Abraham Lincoln, the contraband. Si and Shorty get captured on a foraging expedition. The boys escape from their captors and have some further thrilling experiences, in which they turn the tables on the enemy, Shorty gets a letter from a girl which sets his heart to throbbing. These incidents are all remarkably true to life, and will bring back to everyone some memory of his own service in the army. The book is issued uniform with the preceding volumes, and every veteran should read it, to laugh and cry over the things that he did and saw in his own

By JOHN McELROY.

Si Klegg No. 4 is now about to appear. It takes up Si Klegg and Shorty's experiences on the great Tullahoma campaign. Though it was only 25 miles to Shelbyville, the advance was made thru terrific Summer storms which tested the endurance of any man and animal to the utmost. Si and Shorty had the same experience as the rest of the boys in wading overflowing streams and in getting the wagons thru fathomless mud and in being nearly devoured by the ticks, fleas and other carnivorous insects peculiar to that region. The fortified camp of Tullahoma was taken and the Fourth of July celebrated on the banks th my artificial Far Drums in my of the Elk River. After a brief rest there, they started out for Chattanooga. While on their march a wedding was arranged which the 200th Ind. celebrates with great enthusiasm. They met a new class of Southerners in the loyal East Tennesseeans, and learned much of the inextinguishable hatred between the Union people and the rebels. The boys get a leave of absence and had a chance to return home for a day, where Shorty meets Si's people, especially his good-looking sister Maria. Si meets Annabel and has an exquisitely happy ten minutes alone with her. They come back from home with a batch of recruits and have a time making them into soldiers. They go directly into the battle of Chattanooga, of which a vivid picture is given, and Si and Shorty are severely wounded. The Deacon is notified, and he visits them in the hospital at Chattanooga, and in connection with his visit is a picture of the condition of the Army of the Cumberland while it was being besieged by the Confederates in the "Hawk's Nest." The Deacon has some more characteristic experiences, full of pathos, courage and human interest. The Deacon has some severe trials of his Christianity in his desire to get what will contribute to the boys' comfort, but he manages to work thru everything in a way that will bear telling to the brethren when he gets back to Indiana. The interest in the story is equal to that in all the preceding numbers, and everyone will want is Price 50c., or The National Tribune one year and Si Klegg (paper
